

## Wi-Fi Kit Series

GoodWe's Wi-Fi Kit Series serves as a crucial communication tool that establishes connections with inverters. It ensures the data security with encrypted transmission, while its support for breakpoint retransmission guarantees seamless communication by automatically disconnecting and reconnecting broken links to prevent any data loss. It also supports configuration via Bluetooth, enhancing both safety and stability. Furthermore, the Wi-Fi kit provides the convenience of remote upgrades, allowing inverter program updates without the need for on-site visits.
